

FOR IMMEDIATE RELEASE

Structure-Based Drug Design 2012: International Delegates from Industry and Academia to Meet in Boston on June 6-8, 2012, to Discuss Predicting Biological and Kinetic Profiles from Structure and Effective Technologies Positively Contributing to Drug Discovery and Development Programs.

NEEDHAM, MA - May 23, 2012 - Cambridge Healthtech Institute and Bio-IT World will bring together 150 directors, scientists, professors and researchers from leading organizations. For three days, attendees will be able to interact with peers, thought-leaders and solution providers in a collegial setting. Areas of discussion will include: Structure to Function, Free Energy Calculation and Molecular Dynamics Simulation, GPCR, Fragment-Based Design, Druggability and Kinetics-Based Drug Design, Trends and Advances, and more. A partial delegate list is below and full event details are available at <http://www.healthtech.com/sbd>.

To inquire about sponsorship and exhibit opportunities, please contact Jon Stroup at 781-972-5483 or jstroup@healthtech.com. Sponsors and exhibitors will enjoy facilitated networking opportunities with qualified decision makers. This conference is conducive for launching a new product, collecting feedback and generating new leads.

About Cambridge Healthtech Institute (www.chicorporate.com)

CHI is the preeminent life science network for leading researchers and business experts from top pharmaceutical, biotech and academic organizations. CHI's portfolio of products includes Cambridge Healthtech Institute Conferences, Insight Pharma Reports, Cambridge Marketing Consultants, Barnett Educational Services, Cambridge Meeting Planners and CHI's Media Group, which includes news websites and e-newsletters including Bio-IT World and eCliniqua. Founded in 1992, CHI strives to develop quality information sources that provide valuable new insights and competing points of view while offering balanced coverage of the latest developments.
